ABOUT

When we start drawing we tend to see objects as separate and isolated things. Learning to see like an artist involves become more aware of how objects and spaces and shapes around them fit together, like a jigsaw puzzle. Seeing how things relate to each other - helps our observation skills and is a great way to become better at drawing.

SHARING

CREATIVE THINKING/PROCESS

- 1.Preparation: Gathering Info
- 2.Incubation: Marination
- 3.Illumination: Aha moment
- 4.Verification: Testing (Use your critical thinking and aesthetic judgment skills to hone and refine the work and then communicate its value to others)
